EDUCATION

Georgia Institute of Technology <i>MS in Analytics (Computational Data Analytics track)</i>	Atlanta, United States August 2021 - present
---	---

UC Berkeley, UCLA, UIUC <i>Proctored online courses</i> Calculus 2 (4.0/4.0), Java Programming 2 (4.0/4.0), Applied Linear Algebra (4.0/4.0)	Remote July 2019 – November 2019
---	-------------------------------------

University of Southampton <i>BSc Geography, 3.89/4.0 (equivalent); Dean's List (3/3 years)</i> <i><u>Bsc thesis: "Water point mapping in Tanzania using a machine learning approach"</u></i> <ul style="list-style-type: none">Math coursework: Statistical modelling (4.0/4.0) Statistical Distribution Theory (4.0/4.0)	Southampton, United Kingdom September 2014 – June 2017
--	---

INDUSTRY EXPERIENCE

Datadog <i>Senior Solutions Engineer</i> Monitoring of modern, cloud IT infrastructure – metrics, logs, traces	Paris, France May 2019 – July 2021
---	---------------------------------------

- Shipped part of the Root Cause Analysis product in 4 weeks while working with the Data Science team
- Coordinated proof-of-concept studies and tailored product demos with Sales Representatives, closing 10+ \$5,000 MRR deals and several \$100,000+ ARR deals
- Top-10% performance based on customer satisfaction. Drove 15+ C/VP-level technical troubleshooting cases to swift resolution, including last-minute escalation calls
- Mentored several new engineers and led 30+ troubleshooting calls

Perfect Dashboard <i>Machine Learning Consultant</i> Wordpress website maintenance automation <ul style="list-style-type: none">Improved performance of a model for classifying Wordpress websites condition after plugin updates (fine/broken) by 10%, contributing to passing technical due diligence for a successful acquisitionCoordinated data annotation process, improving the labelling accuracy of a 10-person team by 10%	Warsaw, Poland February 2019 – April 2019
--	--

Researchably <i>Co-founder</i> Automation of biomedical research by extraction of key information from papers using Natural Language Processing <ul style="list-style-type: none">Participated in SkyDeck, UC Berkeley's startup incubator, with \$100,000 funding (< 5% acceptance rate)Developed a machine learning platform for extraction of information from biomedical research papers used by Sanofi (\$20,000 deal)Deployed and optimized an active learning support vector machine model by using a secondary model for hyperparameter tuning, improving the accuracy by 50%Co-authored biomedical data annotation guidelines, increasing annotation quality by 20%Discovered and analyzed customer segments and their needs through 100+ interviews	Southampton, United Kingdom / Berkeley, CA January 2017 – January 2019
---	---

IT Innovation Centre <i>Data Mining Intern</i> <ul style="list-style-type: none">Created a Java application for verifying the truthfulness of social media posts via association rule mining and clustering on Twitter, Facebook, and YouTube data	Southampton, United Kingdom June 2016 – September 2016
